

Many people involved in senior computer learning in the Puget Sound area are getting together monthly to socialize and talk about computers and other devices. STPS is supporting and participating in this program. In addition to One-on-One Technical Support provided on the 2nd, 4th and 5th Tuesday of every month during the hours of 9:30 A.M. to noon, we periodically have an additional meeting on the THIRD Tuesday of a month, typically from 10:00 A.M. to noon, on a topic of Computer or Technology interest to seniors. These meetings are not every month, so please visit this page periodically for notice of the next offering in this arena.

At this time, there is not a “**Third Tuesday of the Month**” Topic-of-Interest-to-Seniors meeting scheduled.

Please visit this page periodically for notice of the next offering in this arena.
